

**OPL** GROUP

A **Unique** approach to Operations **Excellence**

[www.opl-group.com](http://www.opl-group.com)

## About our work

OPL typically works in the capacity of Learning Partner with organisations that are developing a sustainable approach to Operations Excellence.

We have a proven track record working in the Oil & Gas industry, and have had the privilege to develop Operations Excellence cultures in a variety of locations. Our work has taken us from the challenges of the North Sea to the beauty of the Saharan Desert. The one constant has been the energy of the people we work with.

---

Our approach focuses on the frontline workers and the tasks that they perform on a regular basis. In our experience, regardless of the types of operations that an organisation is involved with, there will invariably be many small 'defects' associated with regular tasks. By working with those that perform these tasks we are able to make significant improvements in performance, HSE and costs.

# Consultancy Support

OPL will work with your organisation to design and implement a bespoke Operations Excellence programme that is tailored to the needs and culture of your workforce.

We have a great deal of experience in developing local staff to enable you to unleash the true potential of those employees that perform vital tasks around your operations.

Our aim is to create a sustainable change that is owned and driven by your workers.

## Operations Excellence Academy

To support our clients as they strive to create a World Class business we have created a new approach to developing internal groups of people to deliver Operations Excellence.

We call it our Operations Excellence Academy.

The Academy has 3 core levels:

**Pioneers** – an introduction to Operations Excellence. Delivered on-site and tailored to your organisation and workforce.

**Champions** – Aimed at those that will provide the energy and the leadership at a local level. We provide the skills and knowledge to support them.

**Masters** – Top level course that is by invitation only and aimed at strategic support and more effective organisational learning amongst clients with the same desire to improve.

# Working together on a journey of improvement

---

“OPL has helped us to embed Operations Excellence at all levels of the organisation in just under a year – we are already seeing a huge benefit for ISG, not only in terms of efficiency and \$ 's but also in morale and communication”.
